

Does Your Client Think Their Data Is Protected?

Many businesses believe their general liability will cover them in a cyber event. Not so! Most traditional general liability policies specifically exclude these risks, as the intent was never to cover these exposures. While endorsements exist in the marketplace, small organizations are better served with a dedicated solution and cyber expert by their side.

Our focus is on cyber. Your focus is on your clients.

"I can't believe how easy (your program) is... so look out! Most small businesses ask for quotes but are frightened away by the high minimum premiums. This program makes it affordable for everyone. I am excited!" - Bonita A., Insurance Agency Owner

"You guys are great to work with!" - Rose F, Client, SVP of a Mutual Insurance Company

Our priority is to keep you and your clients protected from cybercrime events. As a first responder to data breaches for nearly 20 years, we know how devastating these incidents can be on an organization and its employees. That's why we've made it incredibly simple for you to quote/bind/print cyber insurance coverage in real time.

BIZLock is the nation's premier cyber insurance and risk management suite empowering small businesses to prevent, protect and respond to cybercrimes. Our platform is simple and you can easily quote every account with BIZLock.

Nearly every industry class will qualify for BIZLock. Pricing is pre-established based on revenue size. From quote to bind, a client can have coverage and instant issued policies in as little as 3 minutes.

BIZLock Cybercrime Protection and Insurance for Business

An organization will likely qualify for BIZLock if:

- They have less than \$10MM in annual gross sales revenue
- They have less than 51 FTE employees
- They have not had a loss
- They are not in the following excluded classes – banks, credit unions, payment processors, gambling, adult entertainment, social media / networking, cloud service providers and securities broker-dealers

For organizations that do not meet our criteria, please contact us for further review and/or underwriting steps. We would be happy to discuss possible solutions with you.

By offering BIZLock to your clients, you are providing much more than just an insurance policy.

BIZLock is aimed at addressing what most small businesses need, which is an affordable solution that delivers essential risk management tools to mitigate exposures, 24/7 access to experts to respond to incidents and the financial protection provided by the industry's largest insurer of cyber insurance - AIG.

Cyber threats are rampant.

With cyber threats bombarding businesses and coming from every direction, mandates for proper protection continue to spread across the world and most partner contracts. Today, engaging proper cyber risk management and having cyber insurance has become part of best practices. Failure to address these fundamental risks is an error.

We encourage you to ensure that your business is protected and then help make sure your clients are informed and protected.
